PJ HOLMES PLACE LARGE ORDER OF SUNRAY 16 LED LIGHTS FOR BAYER CROP SCIENCE IN NORWICH

The installation at Bayer Crop Science will be running on a 12 hour day, 7 days a week basis and utilises PIR sensors.

Working closely with PJ Holmes Ltd, one of Bayer Crop Science's designated electricians we have installed an intelligent, long lasting lighting system that is proving to reduce power, lower carbon emissions and allows the customer to be in control of light intensity, energy consumption and associated costs to suit their individual applications.

This was a new build installation split over two buildings

Coming Next Month:-

The customer was proposing to use 30 x 400w lamps and we replaced these with 30 x 166w SunRAY16's offering a return on investment within 2 years of:-

78% Savings on Electricity

73% Savings on CO2 emissions

London Aquarium to have new LED lighting system for new Penguin exhibit.
